Mr. and Mrs. Charlie Boss grew some nice Red-cored Chantenay Carrots on the Morris Buerman muck at Sodus, N. Y.

CARROTS

Chantenay Red Cored—We believe this strain of seed of ours is as good or a little better than others on the market. Certainly it showed up fine, especially with growers in Oswego County of this state, last season. $\frac{1}{4}$ lb., 55c; lb., \$1.85; 5 lbs. or more at \$1.75 per lb.

Imperator—A long, 8-inch, sloping shouldered carrot tapering to a blunt end, smooth and deep rich orange in color. Flesh rich orange, indistinct core, fine grained, high quality. Tops medium and strong enough for bunching. This is the carrot that is shipped from California to eastern markets. $\frac{1}{4}$ lb., 75c; lb., \$2.75; 5 lbs. or more at \$2.65 a lb.

Morse's Bunching—Tops short; foliage rather coarsely cut; stems medium size and strong. Roots at maturity are $1\frac{1}{2}$ to 1 inches in diameter and 8 inches long, almost cylindrical with rounded shoulders, stump-rooted. A splendid bunching carrot for long distance shipping. $\frac{1}{4}$ lb., 75c; lb., \$2.75; 5 lbs. or more at \$2.65 a lb.

Nantes Improved Extra Long Roots—Extra Strong Tops—A specially fine strain of that popular bunching market carrot. 7 in. long, cylinder shape, blunt ends, orange flesh of high quality, strong tops of medium length, $\frac{1}{4}$ lb., 75c; lb., \$2.75; 5 lbs. or more at \$2.65 per lb.

Streamliner—New bunching carrot for shippers and market gardeners. Tops short, dark green, and strong. Roots long, slender, cylinder shaped, 8 to 10 in. long. Color deep orange, red cored. $\frac{1}{4}$ lb., 60c; lb., \$2.25; 5 lbs. or more at \$2.15 per lb.

CAULIFLOWER

Early Snowball (Special CC-730)—We have reason to believe from the reports brought to us by Cauliflower growers who use this seed year after year that it is far above the average Early Snowball seed offered. It matures early and evenly. The pure white heads are remarkable for their great depth and unexcelled white color and do not become "soft" or "ricy" and you will not find any with green leaves in them. $\frac{1}{4}$ oz., \$1.20; oz., \$4.00; $\frac{1}{4}$ lb., \$14.00; lb., \$50.00.

Improved Super Snowball—A variety making a very large, deep, solid, snow white head. The heavy upright growing leaves are very numerous and being close together force the small inner leaves to curl over and protect the head. $\frac{1}{4}$ oz., \$1.20; oz., \$4.00; $\frac{1}{4}$ lb., \$14.00; lb., \$50.00.

Snowdrift—A few days later than Snowball. Large, solid deep headed. Several Cauliflower growers have told us it is the best they have ever raised. $\frac{1}{4}$ oz., \$1.20; oz., \$4.00; $\frac{1}{4}$ lb., \$14.00; lb., \$50.00.

Danish Giant— $\frac{1}{4}$ oz., 90c; oz., \$3.25; $\frac{1}{4}$ lb., \$11.50; lb., \$40.00.

Italian Purple—Very early strain. $\frac{1}{4}$ oz., \$1.20; oz., \$4.00; $\frac{1}{4}$ lb., \$14.00; lb., \$50.00.

Hart & Vick's Golden Plume Celery on the muck of the Oswego Vegetable Gardens, Oswego, N. Y.

CELERY

Golden Plume (Wonderful)—This is the best early yellow celery and our Special Strain as fine as any in the country. The stalks are large, thick and solid, and the edible portion unusually long. The plants are compact, full-hearted and blanch readily. We are very proud of this Special Strain of Golden Plume. We know it will please the most critical celery grower. Oz., 65c; $\frac{1}{4}$ lb., \$2.25; lb., \$8.00.

Supreme Golden—New tall Golden Self Blanching later than Golden Plume and a little taller. Long jointed broad thick stems, and a very good heart. $\frac{1}{4}$ oz., 30c; oz., 90c; $\frac{1}{4}$ lb., \$3.25; lb., \$12.00.

Golden Self-Blanching. The Old Dwarf Growing. Long Keeping Kind—This is the most popular late variety. The stalks are thick and solid and the stocky plants have large, solid hearts. Celery growers have found our strain of this kind very good. Oz., 65c; $\frac{1}{4}$ lb., \$2.25; lb., \$8.00.

Irondequoit—New early green celery with broad, thick round stems 10 in. to the first joint. Full hearts. Fine quality. Blanching easily to cream white. Oz., \$1.45; $\frac{1}{4}$ lb., \$5.50; lb., \$20.00.

LETTUCE

Imperial 44—The very best "Iceberg" type head lettuce for the eastern part of the country that has been developed so far, and does well on both muck and dryland. The head is of good size, good quality, generally very solid, and is resistant to tip-burn. The seed we offer you is grown for us by the outstanding lettuce seed grower in the country. You can depend on it. The seed is white. Oz., 30c; ¼ lb., 55c; lb., \$2.00; 5 lbs. or more at \$1.90 a lb.

Imperial 847—There are some lettuce growers who prefer this kind to Imperial 44. Last season we saw several mighty good pieces of 847 that brought very good money. With most growers, however, 44 does much better. A trial of both will soon tell you which is best for your land. The seed is black. Oz., 20c; ¼ lb., 65c; lb., \$2.25; 5 lbs. or more at \$2.15 a lb.

White Boston (Large Frame)—Our customers in New York State have been growing this for several years very successfully. It is as fine a strain of the large headed, big framed white Boston as there is in the country. ¼ lb., 50c; lb., \$1.75; 5 lbs. or more at \$1.50 a lb.

ONIONS

Early Yellow Globe—This is the best early yellow onion. Large globe shape, bright yellow skin and quality of flesh make it attractive on the market. Ripens 10 days to two weeks earlier than Southport or Michigan and keeps better in storage than most early kinds. Onion growers throughout the state know our Special Early Yellow Globe. Sold out.

Danver's Yellow Globe (Original Squires Strain)—The globe shaped bulbs are medium large, very solid and have a good dark yellow skin that holds on well. Flesh is white, firm and hard. This strain is, we believe, the very best Danvers that can be grown. Oz., 40c; ¼ lb., \$1.25; lb., \$4.50; 5 lbs. or more at \$4.25 per lb.

Brigham Yellow Globe. Also called **Michigan**—Rapidly growing in popularity. A great yielding variety with a heavy, thick, deep brown skin that stays on the bulb and a splendid keeper. Our strain is very true. Sold out.

Yellow Sweet Spanish (Utah Strain)—We believe this the best of the Sweet Spanish onions. Larger, earlier, more solid, better skin and color than other strains. A true globe shaped onion with pure white flesh of mild sweet flavor. Oz., 40c; ¼ lb., \$1.40; lb., \$5.35; 5 lbs. or more at \$5.25 per lb.

Long White Bunching—A new early kind for spring and fall bunch onions. Does not bulb up but grows in clusters of four or five straight onions of very white color and mild flavor. Oz., 30c; ¼ lb., \$1.00; lb., \$3.75; 5 lbs. or more at \$3.50 per lb.

SEEDS OF ANNUAL FLOWERS

Where quantities smaller than Trade Packages are wanted we can supply retail packages as offered in our Retail Seed Book at a discount to Commercial Growers of 25%.

We fully realize how important it is that the Florist receive the very best strains obtainable and we spare no pains or expense in procuring them for him. Our seeds are as fine as can be grown by the most expert flower seed growers in this country and in Europe.

Wilt Resistant Asters

We recommend all Aster growers, whether they have been bothered with disease or not, to use "wilt-resistant" seed wherever possible. We feel sure that by sowing "wilt-resistant" seed many disappointments due to Aster crop failures will be eliminated. No grower, that we know of, would think of using ordinary Aster seed, after once having used "Wilt-Resistant."
